

SENSATION OF FLYING TOLD BY SUFFRAGIST

Just Like Riding on Scenic Railway, She Says.

"I know just what you are going to ask me," said Miss Dorothy Brooks, the young New York aviatrix who is here for the purpose of the National American Woman Suffrage Association, 1203 Rhode Island avenue. "You are going to ask me how it feels to go up in an airplane." Miss Brooks was scheduled to fly from New York to Washington before inauguration, but was advised by the authorities not to try the trip because of the international crisis. It was thought her airplane might be mistaken for a spy's machine and be fired upon.

"Most people want to know how it feels to go up high in the air. It is a queer sensation at first, but you soon get used to it. Do you remember the first time you took a ride on the loop-the-loop or the scenic railway? Well that is the sensation one gets when one ascends for the first time in an airplane. The second time it is much easier and the third you do not notice it at all.

"There is nothing to be afraid of. Most trouble in the air is caused by passengers who are unaccustomed to great heights, getting dizzy and causing trouble.

WANT MEN IN NAVY TO ACT AS WATCHMEN

Uncle Sam Offers Thirty-two Jobs With Easy Hours.

If you are a good watchman and can shoulder a gun for four hours at a stretch, Uncle Sam has a job for you. The Naval Coast Defense Reserve, Class 4, wants to enroll thirty-two young men for guard duty at the navy yard. Four of guard duty are for four hours at a stretch, three nights out of four. The fourth night there is no duty. As for the pay it runs from \$30.00 to \$35 per month. The navy uniform is worn and you don't have to worry about the high cost of living, because Uncle Sam attends to that.

Neither will you have to pay doctor bills or buy clothes. After three months you can enter the reserve squad and take up your regular profession and Uncle Sam will pay you \$12 a year to keep ready when he needs you. It is also possible for applicants to take an examination for a higher post and if passed to receive two months base pay a year instead of \$12. Base pay is whatever you can induce Uncle Sam to pay you a month when you begin to patrol the entrances of the navy yard. There is hardly a better opportunity offered at such pay to be had in the service these days.

If you are interested in serving your country, call at the Naval Reserve Enrollment Office in the old Naval Hospital, Twelfth and Pennsylvania avenue southeast.

TWO DISTRICT BOYS STRANDED IN SOUTH

Michael Sweeney and Harry Davis Appeal for Aid.

Augusta, Ga., March 17.—Two youths claiming Washington as their residence are stranded here. They are Michael Sweeney, 246 Georgia avenue, and Harry Davis, 2872 Georgia avenue.

Sweeney states that he is a nephew of Policeman Sweeney and "Red" O'Dea, groundkeeper at the American League Ball Park. He says he and Davis came here three weeks ago looking for work.

According to Sweeney, he served with the District Guard on the Mexican border and had just returned to Washington before coming here. Sweeney is 18 years old and Davis is 15.

Michael Sweeney, father of the elder boy, was in police headquarters last night. He has arranged to wire the money for his son's return. He said his son left here Tuesday and that yesterday he received a telegram relative to the matter from Clark Griffith.

HOTEL CLERKS TO BAND TOGETHER AS GREETERS

Representative local hotel clerks will meet at the New Ebbitt Hotel next Thursday evening at 7:30 o'clock to form an organization to be known as the Greeters. It is to be a member of the National Association of Greeters, and proposes to better social relations between hotel clerks here.

Gus Gumpert, of the Ebbitt, chairman of the organization committee, predicted last night a flourishing organization here. "The local field seems well adapted for an organization of hotel clerks," Mr. Gumpert said.

Informal reports are that sentiment for organization is favorable. Official reports will be made at the meeting and a vigorous membership campaign then started.

SOY BEAN SALAD OIL DUE TO MAKE DEBUT

Scarcity of Olive Oil Brings Out Rivals.

"What kind of salad dressing do you want for supper, angel child?" "Oh, sunflower, soy bean, poppy seed, or sesame; doesn't make any difference, snooker dokuma."

What is it all about? Oh, simply a sample of the type of conversation you are very likely to hear in the near future. For the fact is that the demand for oils suitable for salad dressings and other general good purposes is now many times greater than the production of olive oil, according to the Department of Agriculture, and substitutes for olive oil eagerly are being sought.

Cottonseed, coconut, and peanut oils already are being used extensively in the United States. Corn oil now is beginning to appear in the retail local market, and it is probable, according to the Department of Agriculture, that sooner or later numerous other oils in more or less general use in foreign countries, such as the sunflower, the soy bean, poppy seed, and sesame will become common in this country.
